About Me

Hi, I'm Giorgi Khoshtaria, a web developer based in Tbilisi, Georgia. I'm currently completing my studies at the Faculty of Informatics, focusing on front-end development. I enjoy building seamless, efficient web applications and have experience with various programming languages and frameworks. While my main expertise is in front-end technologies, I also have a foundational understanding of back-end development, enabling me to collaborate on full-stack projects.

Experience

- **Coffee-Shop** This is a group project e-commerce website built with React and TypeScript on the frontend and powered by Commercetools on the backend. The site allows users to browse coffee products, manage their cart, and proceed to checkout. The project is currently under development.
- **Flower-Shop** Flower-shop is a web site built with TypeScript (frontend), Express.js (backend), and MongoDB. It's designed for speed, efficiency, and a seamless user experience
- **Food-Cave** Food Cave is a dynamic web application built with React, Express.js, and MongoDB. Designed for speed and efficiency, it delivers a seamless user experience, ensuring smooth interaction between the frontend end and back end.

Skills

- HTML
- CSS
- Javascript
- ReactJS
- TypeScript
- Styled-Components
- Tailwind Css
- NodeJs
- MongoDB
- GIT
- Figma

Education

- 2025** Rs School
Html, Css, Javascript, Typescript
- 2024** Algo Uni
Frontend development
- 2022** Smart Academy
Frontend development
- 2020-2024** Georgian technical University
Bachelor's degree, Faculty of Informatics and Management

Language

- Georgian-native
- English-B1
